

MINIMUN KPI LEVEL GREEN BOND ISSUED 2018-MATURITY 2025 (ISIN XS1881533563)

Eligible Green Category	Eligible Category (DNV)	Details of KPIs minimum level	KPI	UM
Energy efficiency	Cogeneration facilities	Cogeneration facilities harvesting waste energy from heat, waste or gas sources for the generation of electrical energy	Primary energy saving per operating year	MWh
			Electrical energy produced per operating year	MWh
			Thermal energy produced per operating year	MWh
			Avoided CO2 emissions from fossil sources per operating year	t
	Energy distribution and management	Projects and assets critical to the distribution and transmission of electrical energy for renewable sources or the transmission of captured heat	Primary energy saving per operating year	MWh
			Avoided CO2 emissions from fossil sources per operating year	t
			Avoided CO2 emissions from fossil sources per operating year by photovoltaic plant	t
			Electrical energy produced from renewable non-fossil sources per operating year	MWh
			Network leaks	%
			Network leaks	GWh
Waste management efficiency and recycling	Waste collection and sorting upgrades	Projects to increase reused waste by 10% or more and decrease unsorted waste by 10% or more of waste handled	Waste-derived fuel (WDF) per operating year	t
			Percentage of WDF on total treated waste per operating year	%
Renewable energy	Mini hydro power	Projects and assets associated with the generation of electrical energy through hydropower projects with under 10MW capacity	Electrical energy produced from renewable non-fossil sources per operating year	MWh
			Avoided CO2 emissions from fossil sources per operating year	t
			Net produced electricity from renewable non-fossil sources per operating year	kWh
	Solar PV energy generation	Projects and assets associated with the generation of electrical energy through Solar PV equipment	Net produced electricity from renewable non-fossil sources per operating year	kWh
			Avoided CO2 emissions from fossil sources per operating year	t
Waste water treatment	Waste water treatment plant upgrades	Capacity improvements to wastewater treatment facilities to handle loads 30% higher than baseline performance	Water Treatment plants	N
			Sewage systems	km
Transport	Electric vehicles	Use of electric vehicles	Avoided CO2 emissions from fossil sources per operating year	t
