

Group IREN has once more been awarded 2 lots of the annual tender for the electricity supply to Public Bodies

Reggio Emilia, 28 September 2016 – Group IREN, through its subsidiary IREN Mercato, which manages the sale of electricity, gas, heat and services countrywide, has been confirmed as the provider for the next year of two lots of the annual tender launched by Consip for electricity supply to Public Bodies.

In line with the current agreement in force, IREN Mercato, in the fourteenth edition of the agreement, has once more been awarded lots nos. 2 and 3 and therefore been confirmed as the reference provider of Public Bodies in Liguria, Lombardia, Emilia Romagna and Trentino.

IREN Mercato's technical and economical offer was the most competitive among the nine operators which took part in the tender, also with the new structure of the bids required by Consip, allowing Public Bodies to choose between fixed prices linked to forward markets or indexed prices linked to energy spot markets.

The agreement that IREN Mercato will enter into with Consip will have a term of 12 months (possibly extendable for a further 6 months) and will be able to cover orders from Public Bodies for a total volume of up to 1,4 TWh of electricity on approximately 50.000 points of delivery and estimated revenues in the region of 250m€.

As for the current agreement, IREN Mercato will offer the possibility, to the Public Administrations that request it, of certification that the electricity supplied comes from renewable sources (Green Energy Certification), exploiting the Group's renewable production, hydroelectric in particular.

With this result, Group IREN consolidates its growth path through efficiency, innovation, sustainability and cooperation with local communities and territories, in line with the objectives and the vision of the 2015-2020 Business Plan.
