

## E-MOBILITY INITIATIVES IN THE IREN OFFICES

### CATEGORY

Transport (Electric Vehicles)

### LOCATION

### DESCRIPTION

The objective of this project is to replace some in the company transport fleet with new electric vehicles and to build the necessary infrastructure to support the project on the various sites. In particular, the project can be divided into 3 main activities:

- Environmental vehicle replacement: replacing the current electric quadricycles (most of which are currently in operation in Turin) with new vehicles, and replacing 100% of the current heat-powered quadricycles and obsolete cars, planned to take place within the 2018-2023 plan.
- Group vehicle replacement: approximately 400 vehicles from all of the company's main sites (cars used for short distances and small vans).
- Installation of infrastructure: installing Wallbox branded charging posts and wall boxes for charging vehicles at the various sites distributed throughout the territories, in parallel with the replacement plan in place for both environmental and other vehicles.

### AMOUNT

Full project amount (€ millions)	Financeable amount (€ millions)	Financed amount (€ millions)
13.8	13.8	2.6 (GB3) 5.3 (GB2)

### ENVIRONMENTAL PERFORMANCE INDICATORS

KPI	Unit of measure	2017	2018	2019	2020	2021	2022
Avoided CO <sub>2</sub> emissions from fossil sources per operating year	t		52	789	691	871	1,063
